

INSTITUTE OF NEUROBIOLOGY, UNAM CAMPUS JURIUQUILLA

APPLICATIONS FOR TWO TENURE-TRACK POSITIONS

Computational and Genomic Neuroscience at UNAM

The Institute of Neurobiology, UNAM, invites applications for two tenure-track positions (Investigador Titular A), one in Computational Neuroscience and another one in Genomic Neuroscience. We seek experienced scientists with proven record of publications to develop innovative research programs to complement the current neuroscience research at the Institute.

The successful applicants will be expected to establish externally funded research programs, to engage in intramural collaborative projects, to supervise undergraduate and graduate students, and to teach basic and advanced courses in their field of expertise. Applicants should send their CV, addresses of three references, a five-page research proposal and a one-page statement on their views on teaching to ataulfo@unam.mx. The application **deadline is August 15th, 2018.**

We encourage applications from women.
